

Wild Growth had its start in 1985 in the African American communities of Chicago where it spread like wildfire because of its unique ability to protect, strengthen, control, and grow their own hair. It provided (and still provides) control and removal of kinks and naps with ease, giving many a family a natural way to maintain their hair and keep it looking fabulous without chemicals. Using only natural, high quality ingredients, Wild Growth products have always been free of mineral oil, paraben, silicone oil, petroleum based products, preservatives, artificial colors, and synthetic scents.

Today, Wild Growth® Hair Oil and Wild Growth® Light Oil Moisturizer are in over 10,000 retail outlets nationally and worldwide as well as numerous online venues. Wild Growth® also has a fan base amongst non-African quality hair consumers as the oils are universally applicable to all hair types of either gender. Our sister sites display thousands of testimonials arranged in over 60 testimonial categories that speak for Wild Growth® results. We also have over 1,300 completed survey responses showing Wild Growth® Hair Oil and Wild Growth® Light Oil Moisturizers effectiveness at 90%. At Wild Growth Company we take hair health seriously: beautiful hair should not come at the expense of its health.

WILDGROWTH® The Complete Hair Growth System!

by
WildGrowthCompany.com

The Complete Hair Growth System will not only protect your hair in virtually all dangerous situations but it will also GROW, STRENGTHEN, and NOURISH with WILDGROWTH'S Nutrient complex!

With this system you will be able to grow and protect your hair from damage and weakening during:

- Detangling
- Dekinking
- Combing/Brushing
- Braiding
- Blow Drying
- Pressing
- Flat ironing
- Shampooing
- Relaxing
- Perms
- Wig and Weave use
- Harsh climates
- And more!

WILDGROWTH® Yes, But... How Does it WORK?

Wild Growth®Light Oil Moisturizer
Natural Colorless Hair and Scalp Deodorizer

Wild Growth®Hair Oil
*instant detangler and
hair style extender*

Together, they seed deep hair growth structures with the exclusive **growth-specific Wild Growth® nutrient complex**: bringing new growth and flexibility to the hair shaft.

They create less frizz, more thickness, more body, less split ends, less breakage, and a healthy scalp for hair fullness, length, bounce, sway, and shimmer!

Also enjoy anti-friction, anti-stick, high-glide action/high lubricity, low weight, low oiliness conditioning contributing to critical 24/7 hair growth and protection.

With this system your hair will grow, sway with body, be shiny, smooth, less frizzy, healthy looking, and prone to less daily breakage that sabotages your hair's growth!!
You can order your "Little bottles of magic" (happy customer) at www.wildgrowth.com

WILDGROWTH®

How do I use The system?

Hair Growth Shampoo:

Apply FIVE drops of Wild Growth®Light Oil Moisturizer's Bioactivating Buffer drops to your regular shampoo.

This saves hair from being chemically attacked and excessively dried out at the hair root, shaft, and follicle. When the hair can retain its chemistry and moisture on this deep level, more new growth and less breakage will occur after the shampoo is over!

During Grooming:

Apply both the Wild Growth® Hair Oil (The heavy duty deep conditioner) and the Wild Growth®Light Oil Moisturizer to hair that is slightly damp or dry. When hair is fully wet always and only use the Light Oil Moisturizer.

For the Harsh Cold Climate and the Pool:

Cold air is thinner and dries the hair out. Before you venture out into the harsh winter, make sure your hair has a coat too! A coat of The Wild Growth® Complete Hair Growth System!

If you are going for a swim where there are harsh chemicals in the pool, water and chemical proof your hair with Wild Growth® light oil moisturizer as a natural hair cuticle seal guard!
